

The publication reporting tool for NIH-funded investigators!

**My Bibliography** is the tool designed to help all NIH-funded investigators report peer-reviewed publications on their annual progress report. When you access your **My Bibliography** collection, you get a real-time NIH Public Access Compliance check of every item, so you know which articles are good, and which ones need attention.

**Don't have time to manage citations on your own?**

No problem! You can designate someone to manage your **My Bibliography** collection on your behalf, so everything is ready once it is time to complete your progress report in **eRA Commons**.

## Updated version released!

We are hard at work on a new version of **My Bibliography** that will have a fresh, modern look. A primary goal of this redesign was to create a product that works great for those of you with large bibliographies. Easily find citations with new search and filter features.

The easy way to report on grants!

Formats citations correctly for you!

Generate Progress Reports

Easily import citations from PubMed

Integrates with SciENcv

Track compliance with Public Access Policy

Share your citations with colleagues.

For assistance with **My Bibliography** email us.

The easiest way to create and maintain all your biosketch data!

**Science Experts Network Curriculum Vitae (SciENCv)** is an electronic system that helps researchers assemble the professional information needed for participation in federally funded research. **SciENCv** gathers and compiles information on expertise, employment, education and professional accomplishments. Researchers can use **SciENCv** to create and maintain biosketches that are submitted with grant applications and annual reports. **SciENCv** allows researchers to describe and highlight their scientific contributions in their own words!

### Where can I get help?

For assistance with **SciENCv** send an email to:

[info@ncbi.nlm.nih.gov](mailto:info@ncbi.nlm.nih.gov)

**SciENCv** is a free service that is part of My NCBI, offered by the National Library of Medicine.

To access **SciENCv** go to:

[ncbi.nlm.nih.gov/account/nih-sciencv](http://ncbi.nlm.nih.gov/account/nih-sciencv)

## SciENCv Benefits

### Import profile information

Link your eRA Commons account to fill in profile details such as your name, education, etc. Imported data is fully-editable.

Import profile information

### Manage multiple biosketches

Create a custom biosketch for each grant application. Copy existing biosketches to use as a starting point for creating new profiles.

Manage multiple biosketches

### Reuse your citations

Citations housed in your My Bibliography account are available via a pick-list in **SciENCv**.

Reuse your citations

### Share & download biosketches

**SciENCv** biosketches can be made public or private. Generate PDF versions on demand, and use them when filing grant applications at [grants.gov](http://grants.gov).
